Career Opportunity

Establish yourself in THE Electronics Revolution of the Future

The story of Texas Instruments is a story of planned success... the world's largest manufacturer of semiconductors... an innovative pioneer in the development and introduction of high technology components and systems... products rated amongst the best in the world... all leading to continuing substantial growth... In line with our marketing strategy we now offer the following opportunity within our Supply Division.

Microprocessor Trainer From £6000

Based in Bedford, this is a new post and offers the unique opportunity to design, set up and develop a training department aimed at training software/hardware courses for customers and internal personnel. Several courses will need to be established from conception and some existing ones expanded to suit customer requirements. It is envisaged that the department will double in size over the next 1-2 years.

Candidates, probably in their mid-late 20's, qualified to degree level in Maths, Electronics or Computer Science, should possess at least 2 years' industrial experience of microprocessor and allied software. Knowledge of 8080 microprocessors and/or computer training/technical education experience would be distinct advantages. The ability to communicate effectively from engineer to director level is essential.

A substantial fringe benefits package is offered and includes profit sharing, private medical insurance and assistance with relocation expenses where appropriate.

The Texas story is one of planned growth and success, we are looking for a high performer to continue our success story. We have ambitious plans for the future... our microprocessor products will revolutionise the world of tomorrow... If you feel you can contribute and are committed to personal success, then...

Please write or telephone for an application form to Ann Stevens, Personnel Department, Texas Instruments Limited, Monks Lane, Bedford, Tel: Bedford (0234) 87466, ext. 3442.
